

# Clean 24"

## Easy to manoeuvre

The Clean 24" is a well-balanced shower chair that is easy to manoeuvre. The 24" rear wheels permit the user to propel the chair, and they leave plenty of space in front of them for safe side transfers. The brake handles are easily accessible and move under the seat edge when applied. This facilitates side-ways transfers also in the Clean 24".

With a rear wheel adapter, the regular Clean with a 55 cm seat height can be changed into a Clean 24". There are many accessories to choose from also for Clean 24".

### Description

Clean 55 cm with 24" rear wheels

### Item no.

Green	Grey
8020	8020
9216	9276
