

Showering and Bathing

AquaMaster Shower and Toileting Chair

The AquaMaster shower and toileting chairs offer a range of standard options, with static, self propelling and attendant propelled models.

Flexible

Starting with the one piece rigid frame, the chair is easily specified, with flexible options available on chair width and height, seat type, backrest, footrests and with a comprehensive range of accessories.

Carer and user friendly **Height adjustment**

Using leg extension pins the height of the chair can be increased by 25mm (1") – 50mm (2") allowing chairs to be adjusted to suit changes in the users condition. It is possible to change the height of the Self Propelling models by moving the wheel from one fixing hole to another on the wheelplate, or by changing the wheel size.

Alternative wheel positions

Snap on, snap off seat design

The upholstered seat is soft, comfortable and hygienic, with a sealed base to reduce the risk of bacterial growth. Easily removable for cleaning and to help maintain hygiene standards.

Swing away, removable height adjustable footplates

Adjustable to suit user requirements and swing away for easy carer access/transfer.

Versatile design

Versatile design means one frame suits different seat requirements. There is no need to replace the frame, simply the seat if side access is required.

Accessories

The AquaMaster is available with a host of optional accessories including commode pan.

Gutter armrest, thoracic and head support options also available.

AquaMaster Shower and Toileting Chair Range

Self propelled models A11

- *Choice of 20" (510mm) 22" (560mm) and 24" (610mm) rear wheels*

A02	21" Frame	985	965	500	260	445	415	545	495	565	n/a	550			315

A12 (not illustrated)			
Seat height (top of seat)	460	Seat width	450
Overall width	530	Seat depth	370
Internal width (between armrests)	480	Push bar height	805

Rear wheel Self Propelled models

* If 20" diameter wheel is used deduct 25mm from K
* If 24" diameter wheel is used add 25mm to K

Front wheel Self Propelled models

+ If 22" diameter wheel is used add 25mm to K
+ If 24" diameter wheel is used add 50mm to K

Note: Dimension A1, A2, B, D1 & D2 can decrease by up to 15mm if the maximum load is applied. The chair height can be increased by 25mm or 50mm by the use of leg extension pins.

If the chair is raised by 25mm add 25mm to A1, A2, B, D1, D2.

If the chair is raised by 50mm add 50mm to A1, A2, B, D1, D2.

Note: There are three different wheel size options (20", 22" and 24") which give different seat heights and clearance dimensions. Please contact Chiltern Invadex for guidance.

*Extended seat options available (50/75mm longer seat).

Dimensions shown are in mm for guidance only and are for unladen chairs.

A1 = Height (top of push handle), **A2** = Clearance (under push handle), **B** = Height to top of frame, **C** = Height armrest pad (from frame), **D1** = Height to underside of frame, **D2** = Height to underside of commode sliders, **E** = Backrest width, **F** = Width (Internal), **G** = Width (External), **H** = Footrest projection, **J** = Length (castors frame leg), **J1** = Length (castors toed in), **J2** = Length (castors in line), **K** = Projection of front wheel (A08) & rear wheel (A11) from front, **L** = Projection of anti tip bar.
