

ACTIVE-WHEELCHAIR HORNET MODEL 1.878

3 POINTS - PRICE PERFORMANCE

QUALITY

The Hornet is fully basketball equipped!

Including: wheels, tyres, handrims, side elements, footboard, seat- and back support covers, cushion, strappingbelt, defence guard and anti-tip castor

Adaption 1.

The back support is height adjustable in 1 cm (0.39 inch) steps, the back support is anatomically adjustable as usual.

Adaption 2.

The footboard is depth, angle and height adjustable for all users with a shank length between 38-46 cm (15-18 inch). With the raised edges, your feet are safely positioned.

Standard equipped for Basketball:

The defenceguard is welded, as is the anti-tip castor, which is height adjustable. The side elements guide the strappingbelt. The axleposition and the wheel camber are european standard.

Frameversions:

With 4 frame versions you can choose your own! The back support height, rear and front seat height, frame length and the wheel size result in your choice. The userweight is up to 150 kg (330 pound)!
