

QualiKEY Lite is limited version of the state-of-the-art on-screen keyboard

QualiKEY. The ideal solution for user that can manage the cursor and the click of the mouse with external devices like QualiEYE, Head Master, Tracker 2000, SmartNav, a joystick, a touch screen or any other tracking device.

QualiKEY Lite does not include all the features of QualiKEY. User can use only the loaded layout.

QualiKEY Lite is also the perfect solution for any computer accessible by touch screen like public Info-Towers (Kiosks), Info-Towers, Tablet PC and others. The keyboard layout can be fully customized using QualiKEY Lite Editor.

For Whom

QualiKEY Lite is a low cost solution for anybody that just need a simple but complete virtual keyboard, without the need of all the mouse replacement solutions offered by the main version of QualiKEY.
