

# HSCS

high support  
car seat

design for  
travel

### HEADREST

Includes new feature - Hook up your CD player to listen to music through the integral speakers.

### NECK CUSHION

Simple design fitting around the neck to support the head.

### FLEXIBLE TRUNK SUPPORTS

Securely fastening around the child to provide additional lateral stability. Waistcoat harness also available.

### TURNTABLE

Allows easier entrance and exit from vehicles, using a straight forward mechanism with smooth action.

# Support Seat

## design for living

Recommended by Auto Motor Sport Magazine for two years running as the safest car seat option, the seat and turntable unit has passed crash testing to standard ECE-R44.

As an adaptation of the Recaro Start, the High Support Car Seat retains its comfortable and ergonomic seating position whilst still being practical and easy to use. Simply secure into the vehicle using the car's own 3 point seat belt and adjust the seating position by varying the back height and recline (two tilt positions), seat width and seat cushion length. The seat combines comfort and safety for children of 9 months to 12 years, up to a weight of 36kg.

We have added extra supportive features tailoring the chair to the requirements of children with special needs.

DIMENSIONS (cm)	MIN	MAX
Backrest Height	56	76
Seat Width	-	33
Seat Depth	27	36
